

BaseModel

```
classDiagram
    class BaseModel
    class schemas_AddressBase["schemas.AddressBase"]
    schemas_AddressBase --|> BaseModel
```

The diagram illustrates a class hierarchy. At the top is a white rectangular box labeled 'BaseModel'. Below it is a gray rectangular box labeled 'schemas.AddressBase'. A blue arrow points from the 'schemas.AddressBase' box up to the 'BaseModel' box, indicating that 'schemas.AddressBase' inherits from 'BaseModel'.

schemas.AddressBase
